CITY COUNCIL BOOSTS SALARIES

All Officers are Given Raise in Pay

NO SITE IS SELECTED

For Location of City Hall. The Matter Having Been Deferred for Two Weeks—City Officers are Elected For Ensuing Year by the Council.

The city council was called to order in special session at the city chambers Tuesday evening, May 3rd, by President Twohey. The following members were present to answer to roll call: Henning, Cardle, Robertson, Paine, Zakariassen, Gardner, Drexler, Kjellquist and Dieckhaus and President Twohey.

The reading of the minutes was dispensed with.

President Twohey called the attention of the council to the elections to be held and said they would proceed under the provisions of Section eight of the city charter. In alluding to the qualifications of candidates for office he referred to Section thirteen of the charter.

President Twohey declared with the consent of the council, that where there was but one applicant for a position a formal ballot would be taken. Where there were several applicants, an informal ballot would first be taken to be followed by formal ballots. "And further," said President Twohey, "whoever receives the full vote of the council buys a box of cigars." He urged the council to choose the best officers, as it was for the best interests of the city to do so.

The application of V. N. Roderick for city clerk was read. There being no further applications, the council took a formal ballot and cast the full vote for V. N. Roderick as city clerk. Mr. Roderick bought the cigars.

The applications of M. E. Ryan and W. W. Bane for city attorney were read. An informal ballot was taken. Bane received 5 votes, Ryan 4 votes, W. H. Crowell 1 vote. A formal ballot was then announced. The question was now raised as to the eligibility of Messrs. Bane and Crowell. Both of these gentlemen, it was said, were salaried members of the committee having charge of the revision of the ordinances. "We are now," said President Twohey, "in the position of referring a question regarding the fitness of two candidates for the office of city attorney to the third candidate for office, our present city attorney." No decision was made in this case and the council skillfully avoided both horns of the dilemma and took a formal ballot. Ryan received 6 votes and Bane 4 votes, and the chair announced the election of M. E. Ryan as city attorney. The contest which had been engendered for this office relieved Mr. Ryan from the necessary pecuniary expense involved in the purchase of a box of perfectos.

It was moved and seconded that the election of the city engineer be dispensed with for the present and the motion carried.

The contest for weighmaster brought out two applicants, P. J. Walters and Miss Winifred Smith, the present incumbent. The informal ballot stood Miss Smith 8 votes, P. J. Walters 2 votes. A formal ballot was then taken which resulted in the election of Miss Smith. She polled 8 votes and P. J. Walters 2 votes.

For chief of the fire department there were no applicants on file. Alderman Dieckhaus, seconded by Alderman Cardle, nominated H. McGinn. A formal ballot was taken which gave McGinn 9 votes and John Mutch 1 vote, resulting in the election of H. McGinn as fire chief.

For street commissioner the applications of Wm. Barron and Joseph St. Peter were read. The informal ballot taken gave Barron 9 votes and St. Peter 1 vote. The formal ballot showed a slight change and gave Barron 8 votes and St. Peter 2 votes. Wm. Barron was thereupon declared elected street commissioner.

For building inspector no applications were on file. Alderman Drexler, seconded by Alderman Cardle, nominated the present inspector, Francis J. Britton. A formal ballot gave Britton 10 votes.

No action was taken in the matter of a poundmaster as one had been elected a short time ago, who was also serving as sanitary policeman.

President Twohey brought up the question of selecting a deputy as-

essor, one who was to act in an advisory capacity and to be paid at a certain rate per day. Alderman Paine spoke in favor of it. Alderman Gardner recommended George A. Keene. President Twohey recommended A. L. Hoffman. Alderman Paine said he had asked W. D. McKay. Alderman Gardner mentioned James M. Elder. City Attorney Ryan suggested Ed. McKay. Alderman Drexler referred to George Abbott. Alderman Robertson thought C. B. Rowley would be a good man. Alderman Drexler thought that P. B. Nettleton was a good man for the place as he was well posted on real estate values. Mayor Ousdahl brought up the name of Anton Mahlum as being eminently fitted for the place for he had served as city clerk, county auditor and in other positions and was posted on real estate values. Alderman Cardle suggested Artie C. White. Alderman Dieckhaus thought that if an insurance man was elected the insurance agency and the assessors would make a poor combination. Alderman Gardner, seconded by Alderman Drexler then nominated A. Mahlum as deputy assessor for the assessing season of 1910. There being no further nominations a formal ballot was taken and A. Mahlum received the full vote of the council and was declared elected.

The question of wages and salaries was then taken up. Each position was considered separately and in the end a resolution was prepared by City Attorney Ryan covering the whole matter, which was adopted as follows: City Clerk.....\$65 per month Municipal clerk.....\$25 per month City attorney.....\$65 per month No action on city engineer. Weighmaster.....A fee office Chief fire department.....\$25 per month Building inspector.....\$5 per month Street commissioner.....\$3 per day City treasurer.....\$35 per month Assistant assessor.....60c per hour Street employees to get a raise of 10 per cent, based on a 10 hour day. In regard to the payment of the city attorney's salary, the payment will be divided between the city and the water and light board the latter paying one third and the city paying the balance of his salary.

Alderman Paine suggested taking up the matter of building sites for a city hall. The Sykora site being the lots located near the new post office received the most attention of the council. Alderman Cardle said he didn't know where a better site could be secured. It was in the center of town. Alderman Henning said there were rumors of additional propositions to be offered to the council.

President Twohey made a short speech and stated he had been living in Brainerd 22 years. He said public buildings should be placed in the proper places. "The high school," said Mr. Twohey, "had been gerrymandered to the south side, and the post office was there too. The business men had located the postoffice on the south side when the north side has sites to offer too. The library had been placed in a central part of town but in an out of the way place. The city hall should be placed where all could get to it." The charter gives the council the right to locate a city hall wherever it sees fit. If the council adopted some site unsatisfactory to the people they could turn down the whole proposition later by refusing to vote for bonds to erect the building.

Alderman Paine explained his view in the matter for, as a member of the special committee, he had recommended to the council the Sykora site.

Alderman Drexler said the proposition of having a city hall was something that had been agitated by the people for many years, and when it came to acquiring a site he did not see the necessity of taxing people \$15,000 when \$1 would purchase a location. As a city hall and fire station the Sykora lots could not be more centrally located. He was in favor of this location or any location near it at such a figure.

President Twohey referred the council to section 47, which gives the city right of condemnation and eminent domain.

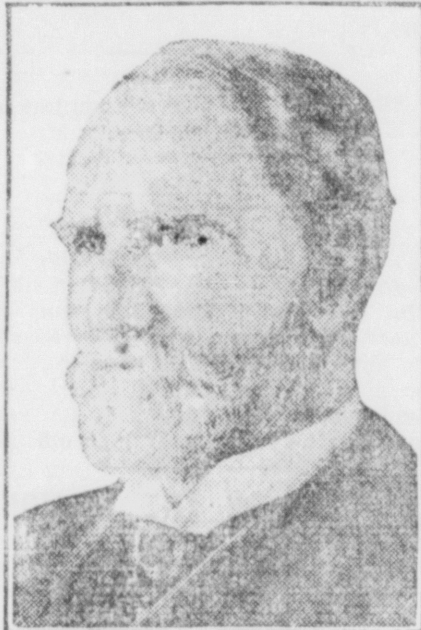

M. E. Ryan, as a citizen, said the city could grow only to the south and the east and that he favored a site in the center of such territory. On motion duly carried, the council deferred for two weeks the selection of a city hall site.

A resolution was adopted concerning the licensing of dogs. Every dog must carry a tag, costing \$1.00 before June 1st.

TO MAKE NOBEL PRIZE ADDRESS

Colonel Roosevelt Goes From Copenhagen to Christiania.

BIG CROWD AT THE STATION

Thousands of Danes Gather to Say Farewell to the Former President of the United States—Two Loving Cups and Four Plaques From the Royal Porcelain Works Presented to the Distinguished American.

Copenhagen, May 4.—Theodore Roosevelt has left here for Christiania. At Christiania the feature of his visit will be the Nobel prize speech. This will be delivered on Thursday afternoon in the National theater.

An enormous crowd gathered at the station to bid farewell to Mr. Roosevelt. Minister Egan had been invited to go to Christiania, but he decided to remain here, having just received news of the death in the United States of his wife's mother.

Mr. Roosevelt was the recipient of two loving cups, one bearing the Danish coat of arms and the other the American arms, and also four plaques from the royal porcelain works, upon which were pictured several wild beasts. In making the presentation, the manager of the works told Mr. Roosevelt that they were "wild beasts of Africa."

Mr. Roosevelt accepted the plaques graciously, and while examining the figure of an elephant, looked up suddenly and said smilingly: "That is not an African elephant." "That is quite true," replied the manager. "These plates were made specially. We have no study of African elephants, and so used Asiatic."

The incident caused a great deal of amusement, and the colonel remarked: "I am very glad to have all kinds of elephants."

Dinner in Honor of Roosevelt.

The municipality gave a dinner at the city hall in honor of the former president, which was attended by 250 of the leading men of the city. This took place at 6 o'clock in the evening, so as to allow plenty of time to catch the train. The lord mayor presided, and all the members of the cabinet were present. The mayor proposed the health of the guest of honor in admirable English, and the company cheered enthusiastically as he concluded: "Long live Roosevelt!"

Mr. Roosevelt, in responding, touched upon the similarity of the problems confronting all free countries. He was cheered when he left the dinner by the big crowds that had gathered outside the city hall.

During the course of the day the Roosevelt party motored to Elsinore, where great interest was shown in the old Elsinore castle, the scene of "Hamlet," and returned to Copenhagen on the steamer Queen Maud, which passed between squadrons of Danish and Swedish warships that accorded honors to the former chief executive of the United States which are usually paid only to royalty.

Dirch, Larch and Fir. The birch grows farther north than any other tree. Next comes the Siberian larch and then the fir.

chickens were then brought before the house. The chicken question was threshed out till the feathers filled the air. There was a state law to regulate automobile speed. Alderman Robertson injected a side remark by saying bicycles should be regulated off the sidewalk. Mayor Ousdahl recommended writing different cities to see what speed limit was set by various municipalities. No action was taken regarding chickens or automobiles.

The council thereupon adjourned.

FARMS DO NOT PRODUCE ENOUGH

Wilson's Explanation of High Cost of Living.

SOLUTION LIES IN GOOD HANDS

Secretary of Agriculture Declares That the Farmers Are Awake and That No Country is in Danger When This Is the Case—Says Charges That Farmers Have Combined to Put Up Prices Are Untrue.

St. Louis, May 4.—That the farms of the United States are not producing half what they should because of a lack of practical education among the farmers was the explanation of the high cost of living problem offered by Secretary of Agriculture James Wilson in an address at the farmers' union rally.

Secretary Wilson received a mixed greeting from the largest audience that has yet attended the sessions. A motion that the delegates arise when the secretary entered was voted down with cries of "He's no better than we are." When he appeared about half the audience stood up while the others shouted, "sit down."

He was roundly applauded at the conclusion of his address, however, and presided at the remainder of the session.

"I believe the solution of the cost of living problem lies in good hands," said Mr. Wilson. "The farmers are awake and no country is in danger when this is the case. I have investigated charges that the farmers have combined to put up prices and rob the community and have found that they are not true."

"In the past the manufacturers asked no questions as to the continued fertility of the soil and no effort was made to educate the farmer or his son, while the education of the farmer's son to leave the farm went on apace. Manufacturing will not succeed without an abundance of food at reasonable prices, and now that the farms in the East have fallen away below the standard of productivity the manufacturers are waking up to the danger of underproduction."

"The government continued for half a century to give away its fertile lands until now we have little left except the dry lands. The farmer in the old days was a good natured person, working for what wages he could get and being glad of it, while his sons went away from the farm."

Something Must Be Done.

"A new day has come. Our population is increasing a couple of million or so a year and our production is not keeping pace with this growth. Prices have gone up. Something must be done."

"Of the fourteen states of the Mississippi valley not one is producing half the crops it should because the farmers have not been taught scientific farming. We can and will, ultimately, double every crop we're growing and at the same time care for a population of 200,000,000 people. When we've done that the agriculturists of that day will show how to double the crops again."

"The government is straining every effort to improve the soil and is accomplishing wonderful things, but there remain other things to be done. We're forgetting the old home economies. We buy too much in paper bags, forgetting the sacks and barrels. One of the best things I could recommend to you would be the appointment of a committee to study the economies of the home. Rice, sold at wholesale in Louisiana at 2 cents a pound, costs 8 cents a pound in the North in a paper bag."

"The farmer must be educated. We need a countryside university. If I had nothing else to do I should become a lobbyist in my state of Iowa to demand that agriculture be taught in every one of the thirty or more colleges there. If we teach the young farmers the old farmers will soon take interest."

"We must keep our young farmers on the farm. Immigrants who have lived on farms should be placed on farms when they come to this country."

"We need agricultural teachers. We need agricultural text books, but where are we going to get them? Some day we'll have a primer and all the readers. That will be a step."

Drowned in Senses's Creek.

Spooner, Minn., May 4.—Old Mike Stern, living down the Rainy river, was drowned in Senses's creek. How the accident happened is not known. He left Baudette early Sunday morning in his rowboat, which was found later in the day floating bottom up. The body was found by the searching party.

Keeper Mangled by Lion.

Forest City, Ia., May 4.—While thousands of people gazed helplessly, terror-stricken at the sight, an enraged male lion sprang upon his keeper, George Hardy, during a parade of the Yankee Robinson circus here, bore him to the floor of the cage and inflicted wounds that may result in his death.

RUTH BRYAN LEAVITT.

Becomes the Wife of an English Army Officer.

WIFE OF A BRITISH OFFICER

Bryan's Daughter Married to Lieutenant Owen.

Lincoln, Neb., May 4.—The wedding of Lieutenant Reginald Altham Owen of the British Royal Engineers, and Ruth Bryan Leavitt was celebrated at Fairview, the Bryan country home. The strict censorship ordered by Mr. Bryan prevented any announcement as to the details until after the ceremony.

A telephone from Fairview, dictated by Mr. Bryan, announced that Lieutenant Owen and Mrs. Leavitt were married in the presence of the immediate relatives and a few personal friends. The ceremony was performed by Rev. Harry F. Huntington of Crete, Neb., an old friend of the Bryan family, who officiated at the marriage of William Bryan, Jr., last June in Colorado.

A wedding luncheon followed and early in the afternoon the bridal party boarded a train for Kingston, Jamaica, according to Bryan, where the lieutenant is in the service of the British army. Their route, however, is to be kept a profound secret, a decision said to have been prompted by the utterances of Artist Leavitt, divorced husband of the bride, who has displayed such bitterness in his criticisms of the Bryans that the lieutenant and his bride will risk no embarrassment at Leavitt's hands.

NO ACTION MAY BE TAKEN THIS SESSION

Although Congress Knows Canada Favors Reciprocity.

Washington, May 4.—With the near approach of the adjournment of the Canadian parliament interest is revived here in the situation as to wood pulp and pulp wood. The intimation from Quebec that the Canadian government very likely would be willing to enter into a reciprocal arrangement with the United States which might involve the removal of the provinces of the provision against the exportation of pulp wood in consideration of favors by the United States in the way of lower duties on print paper, and the free entry of mechanically ground wood pulp occasioned no surprise here.

From the time of the visit to Washington last March of the Canadian premier the United States government has understood that such an arrangement would be welcomed by the Dominion, and the intimation then was made that the proposals contained in the Mann bill introduced in congress last December probably would be satisfactory. This bill reduced the duty on print paper from \$3.75 to \$2 per ton and placed wood pulp on the free list.

Owing to the attention of congress being directed to other important matters urged by the president, the question of the modification of the tariff as to pulp has not been considered, nor is it likely, it is said, that any more moves in that direction will be made in the present session.

It is understood by the state department officials that the Canadian government has practically given its assent to the proposition to negotiate reciprocity between that country and the United States, and that the matter will be taken up after the adjournment of the Canadian parliament with in the next week or two. It is also understood that one of the first questions to be considered by the representatives of the two governments having such a treaty under consideration will be that concerning wood pulp and pulp wood.

Indian Commits Suicide.

Green Bay, Wis., May 4.—Despondent over money losses, Martin Denny, an Oneida Indian, fifty-eight years old, sought a deserted spot in the woods and hanged himself.

KELLER IS ELECTED MAYOR OF ST. PAUL

TAFT ATTENDS CEREMONIES

Present at Unveiling of Statue of Theodore Thomas.

Cincinnati, May 4.—President Taft wound up a day of renewing old acquaintances by appearing before a brilliant and enthusiastic throng at the opening of Cincinnati's annual May music festival as the dedicatee of an heroic statue of Theodore Thomas, first conductor of the festivals and former head of the Chicago orchestra.

Having respected the president's wishes that he be treated as a "citizen of Cincinnati" all day the public took full advantage of his appearance to acclaim him as the chief executive of the nation. A fanfare of trumpets ushered the president upon the stage, but the notes of the instruments were drowned by the shouts of the thousands who had listened to the inspiringly patriotic strains of Handel's "Judas Maccabeus."

A chorus of 800 voices, backed by an immense organ and the full Chicago orchestra, sounded "O Liberty, Thou Choicest Treasure, Seat of Virtue, Source of Pleasure," and was augmented by 300 boys' voices when the tremendous "See the Conquering Hero Comes" chorus was reached.

Mrs. Theodore Thomas and her two sons occupied a box at the concert and heard the president's eulogy of their husband and father.

The statue of the musician who conducted the festivals from 1873 to 1904 had been placed in the corridor of the building. It was covered when the audience entered, but the draperies were removed at the conclusion of the president's speech.

WILL SPEND ONE MILLION

Great Northern to Improve Its Road-bed.

Grand Forks, N. D., May 4.—The Great Northern will spend over \$1,000,000 in the improvement of its right-of-way between Barnesville, Minn., and Grand Forks this summer.

The present seventy-pound rails are to be replaced with ninety-pound rails and the roadbed is to be rebalanced. Practically means the entire reconstruction of the line between the points named.

With the new rails laid, the Great Northern will be able to make better time through that section.

Being practically without grades of any kind, the company will be enabled to send its crack trains over the line with the highest speed possible, and thus greatly facilitate the handling of its transcontinental business.

Material is rapidly being shipped to Barnesville for the work.

INJURED IN DRUNKEN ROW

Peacemaker Badly Beaten Up by Combatants.

Sisseton, S. D., May 4.—Lawrence La Framboise, whose home is just across the line in Day county, was seriously injured in a drunken row near Waubay. He has been unable to speak or to swallow any food or water since his injury several days ago. He has had frequent convulsions and is not expected to live. The injury which he sustained was a blow upon the head with a spade, causing intracranial hemorrhage and pressure on the brain.

It is reported that the two Owens brothers, who are quarterbreeds, were engaged in a drunken altercation when La Framboise attempted to pacify them. Both of the combatants turned upon the peacemaker and proceeded to beat him. Information charging murder will be sued upon in the event of La Framboise's death.

STEVENS GETS AMENDMENT

Makes Change in the Pending Railroad Bill.

Washington, May 4.—Although Representative Stevens of St. Paul failed in his effort to amend the long and short haul clause of the pending railroad bill he secured the adoption of an amendment authorizing the interstate commerce commission to make an inquiry into alleged abuses of the long and short haul clause of the present law and of the provisions against discrimination contained in that statute.

Mr. Stevens made a strong argument against the long and short haul clause of the bill, contending that it would make possible discriminations against shippers and work to the disadvantage of the small Western towns of the country.

The St. Paul member did not endorse the existing long and short haul clause. He said that abuses had grown up under it, but insisted that before changes were made an investigation should be made by the interstate commerce commission to ascertain the facts. Mr. Stevens argued that to some extent the existing law aimed at discrimination against individuals and communities and the long and short haul clause were conflicting, resulting in abuses that in some instances worked harm to the railroads, but that in the main reacted on the shipper and the smaller centers.

The Stevens amendment, which was defeated in a subsequent vote, was stoutly opposed by Representative Mann, who is in charge of the bill.

Republican Candidate Wins by Large Majority.

REPUBLICAN VICTORY

Contest on Controller and Treasurer

are Close, but Democrats Seem to Have Control of Council—Keller's Majority Over Haas will Probably Reach 5,000—The Issues Were Clearly Defined, and Election Follows Campaign of Education.

St. Paul, May 4.—By a majority which will probably prove to be unprecedented in the political history of St. Paul, and which surprised even the most sanguine Republican leaders, Herbert P. Keller, the Republican candidate for mayor, was elected mayor of this city and the indications are that he will sweep the greater part of his ticket with him to victory.

Even the first precincts to report pointed unerringly to a Republican landslide, a they were largely Democratic strongholds, and the change in the vote from the election of two years ago was too marked to be mistaken.

As each return came in it helped only to swell the size of the Republican majority. Early in the evening Richard T. O'Connor, the de facto manager of the Democratic campaign, conceded Keller's election by 3,500 and this gradually grew larger until it had passed the 4,000 mark and showed promise of going near to 5,000.

Returns on treasurer and controller came in more slowly and the earlier figures were favorable to both Roth and Bishop, the Democratic candidates.

Judges Hanft (Dem.) and Finchout (Rep.) are both elected municipal judges by safe majorities and ran neck and neck.

It seems probable that five Democrats and four Republicans have been elected to the assembly and that nine Democrats and three Republicans have been elected aldermen.

CAUSES PANIC IN A SCHOOL

Boy Explodes a Dynamite Cap at Bemidji, Minn.

Bemidji, Minn., May 4.—A panic was caused in the Central school building and John Lindvall, a thirteen-year-old student, was injured by the explosion of a dynamite cap which he had been cleaning with a nail. The children made a mad rush for the doors and the students in the other rooms also heard the explosion and became frightened. Many of the youngsters were bruised.

The Lindvall boy said some one had shot him and stuck to his story until Professor Ritchie took two empty caps to the hospital, where the boy had been taken for treatment. When confronted with the caps the lad admitted that he and two other boys had entered a storeroom belonging to the Crookston Lumber company and had stolen several of the caps, not knowing how dangerous they were.

ANTAGONISM IS REVIVED

Butter Dealers and Manufacturers at Odds.

Chicago, May 3.—Pledges of support and of brotherly love made by Chicago butter dealers and Elgin manufacturers at last week's meeting of the Elgin butter board have been forgotten and antagonism has been revived.

The change of heart was brought about by the Elgin members' refusal to lower their quotation of 29 cents to 28 cents, as had been done at Chicago earlier in the day.

A week ago when the Chicago men journeyed to Elgin they found the manufacturers subdued by rumors that the federal government was taking a hand in the controversy, and little difficulty was experienced in deciding that a drop of 3 cents a pound would be beneficial to the trade.

Consequently only a few of the local dealers braved the bad weather to attend the meeting. Prices at Chicago had been lowered and no opposition was expected at Elgin, so it was not believed that a large number of Chicago votes would be necessary. Dealers and manufacturers assembled on the floor of the Elgin exchange, chatted sociably and everything was serene until the price committee turned in its report. A few moments of quiet followed, and then came the uproar, for the president of the board had announced that the price committee had voted to maintain the quotation at 29 cents.

Italian Shoemaker Murdered.

Hurley, Wis., May 3.—An Italian working as a shoemaker here since February has been killed. The crime was unknown until he was found dead, but still warm. The discovery was made by a woman who called with a shoe to be repaired. The dead man was not known to have any enemies, and the crime probably was the work of the Black Hand.

NEW BANKS ARE ORGANIZED

Ninety-nine Spring Into Being in North
Dakota.

Bismarck, N. D., May 4.—Ninety-
nine new banks were organized in
North Dakota the past year, accord-
ing to State Bank Examiner Oliver
Knudson. Of the new banks, sixty-
seven are state banks, while the re-
maining thirty-two are working under
national banking laws.

There are 653 banks in the state,
513 being state banks and 145 national
banks. A year ago there were 446
state banks and 113 national banks, or
a total of 559.

A corresponding increase in the re-
sources of the banks is also shown,
being at the present time \$100,023-
641.47. The resources of the state
banks are \$51,575,676.51, while those
of national banks are \$48,447,964.96.
The resources of the banks a year ago
were \$78,483,080.45, the increase being
\$21,940,561.04.

Always New.

HON. R. G. DUNN THE SPEAKER

Memorial Day Arrangements are Being Perfected and Citizens Will Lend all Possible Aid

SCHOOL CHILDREN PARTICIPATE

At Meeting Saturday Evening Program was Partially Outlined—W. R. C. to Furnish Dinner

The meeting called for Saturday evening at the Commercial Club rooms for the purpose of talking over the plans for Memorial Day, while not largely attended, was enthusiastic and the citizens and old soldiers present compared notes and discussed the arrangements to be made for the observance of the day.

Col. A. J. Halsted was made chairman of the meeting and he outlined what should be done. The "boys of '61" are getting to be old men now and the custom for the citizens to take hold of the active arrangements of the day they and the nation observe with fitting ceremonies in other communities is being followed in Brainerd, and this year more than ever assistance will be tendered.

Judge Fleming announced to the meeting that he had engaged the services of Bob. Dunn, of the Princeton Union, to deliver the principal address, and had secured the opera house for the speaking and exercises.

Short addresses will be made by local men, Prof. Cobb having been selected for one and the others will be announced later. The school children will take part in the programme, and a representative of the Sons of Veterans was on hand at the meeting to offer the services of a firing squad for the forenoon exercises. The completion of the programme was left to Col. Halsted and Comrade Congdon and as soon as it is completed it will be announced.

The ladies of the Woman's Relief Corps have undertaken to give the old soldiers a dinner on that day and they are already making preparations for the event. F. M. Koop, manager of the Unique theatre, has tendered his vaudeville house for one night and will turn the entire receipts of the two performances over to the ladies to help defray the expenses of the occasion. The performances will contain some local talent in addition to the regular bill and it is expected that the public will generally help out by lending their attendance on that night, the date of which will be announced later.

HOW TRUTH IS EXAGGERATED

Los Angeles Newspaper Article on Burning of Electric Light Plant is Thrilling in Detail

Nate Barber is in receipt of a paper from Fred Davenport, who now lives at Redlands, Calif., printed at Los Angeles which contains an alleged account of the recent catastrophe which visited this city. Mr. Davenport was very much worked up over the matter and immediately wrote his friend to learn the truth, and incidentally to find out if any in this part of the country lived to tell the tale. A copy of the telegram is reproduced to show how unreliable some newspaper correspondents are and what they will resort to to make a sensational telegram which is read thousands of miles away from the scene and no one is the wiser. Note also that it is the city water plant that is said to be burned up:

GREAT DAM IS BURNING

Couriers Warning Lowland Residents to Flee to Hills for Lives

(By direct wire to Times) Duluth (Minn.) April 23.—(Exclusive Dispatch)—The great Weyerhaeuser dam at Brainerd is burning and if it goes out all the lowlands for fifty miles will be inundated. The city water plant was destroyed by incendiary fire early in the evening. Couriers are warning residents all through the valley to flee to the hills. The giant dam at Little Falls, thirty miles below Brainerd, will go out if the Weyerhaeuser dam breaks.

ON TO CROOKSTON

County Organization Has Arranged for a Pullman to Accommodate the Crowd

The Crow Wing county organization of the Northern Minnesota Development Association have arranged for a standard Pullman sleeper for the trip to Crookston on June 1, 2 and 3, so that members of the delegation can use the car for sleeping purposes during the stay as well as for the trip both nights going and coming. It will require 18 paid fares to secure the car. The secretary of the general association has announced the number of delegates allotted to each county and Crow Wing's number is five, and in addition to the regular delegates there should be at least 50 to go from this city and boost for the December meeting in Brainerd. Bemidji is out after the next meeting but with a good, enthusiastic delegation in attendance we can have the next meeting in this city.

The High Cost of Living

Increases the price of many necessities without improving the quality. Foley's Honey and Tar maintains its high standard of excellence and its great curative qualities without any increase in cost. It is the best remedy for coughs, colds, croup, whooping cough and all ailments of the throat, chest and lungs. The genuine is in a yellow package. Refuse substitutes. For sale by all druggists. mwf

NEW MEMBERS ELECTED

The Meeting of the Directors of the Commercial Club is Well Attended—Much Business Done

The directors of the Commercial club met in regular session at the rooms on Front street Monday evening, and the meeting was unusually well attended. Two new members were elected, Geo. H. Warner and E. L. Ludwig, and much important business was disposed of. T. C. Gordon, of the Little Falls Electric and Water Company, appeared before the meeting and asked permission to explain and outline the proposition he has made the city in the matter of furnishing them electric current. The by-laws committee made a report and the members of the club will be furnished with a printed sheet which will be mailed them in order that the same may be looked over carefully with a view to presenting any amendments or alterations at the regular meeting of the club on Tuesday evening next, at which time the matter will be taken up and discussed.

What Everybody Wants

Everybody desires good health which is impossible unless the kidneys are sound and healthy. GEORGE HANSCOM

Candidate for the Republican Nomination For State Treasurer

Was born on a farm in Stearns county and is of German-English extraction. The first twenty-two years of his life was spent on the old homestead, after which he went to Eden

Valley where he secured employment in the State Bank as bookkeeper and general utility man. Here he remained for five years after which he removed to Watertown where he became interested in the State bank at that place. During the past eight years he has resided in Foley and is cashier of the State Bank of Foley. He has at all times taken a deep interest in local affairs and has served as president of the school board and village council.

Mr. Hanscom has always been a consistent Republican and was an alternate delegate to the national convention which met in Chicago in 1904. During the past two campaigns he has been chairman of the Republican county committee of Benton county and by hard work has succeeded in greatly reducing the Democratic vote of that county.

He is well qualified for the position to which he aspires, by reason of natural ability and training and would appreciate any support given him.

Commander Julius A. Pratt Post No. 143 Dent. Ill. G. A. R.

Mr. Isaac Cook, Commander of above Post, Kewanee, Ill., writes: "For a long time I was bothered with backache and pains across my kidneys. About two months ago I started taking Foley's Kidney Pills and soon saw they were doing just as claimed. I kept on taking them and now I am free from backache and the painful bladder misery is all gone. I like Foley's Kidney Pills so well that I have told many of my friends and comrades about them and shall recommend them at every opportunity." For sale by all druggists. mwf

INJURED IN RUNAWAY

Mrs. L. M. DePue, Visiting at Monticello is Injured Monday Morning

Mrs. L. M. DePue, wife of Cashier L. M. DePue of the Citizens' State bank, was injured in a runaway accident which occurred Monday forenoon at Monticello.

The team which her brother, Tom Foley, was driving, became unmanageable. Mr. Foley was thrown out and dashed to the ground. His injuries which are all internal are considered serious. Mrs. Tom Foley who sat on the seat with her sister-in-law, Mrs. DePue, was hurled out and struck against a tree breaking her right leg at the ankle. Mrs. DePue fell off the seat and clung to the wagon box and when the team slowed down a little near a hill she leaped out, sustaining severe bruises.

She will remain at Monticello several weeks and will not leave until assured that her brother and family are out of danger.

Will be demonstrated and fitted in our corset department by Mrs. M. A. Shank, an expert corsetiere, and the special representative of the H. W. Gossard Co., of Chicago.

She will be pleased to explain to you the improvements, emanating from the New School of Design and Construction in Corsetry, created and used for the first time by the manufacturers of these famous front-lacing corsets.

We have a stock of the Newest Models, representative of this New School; and, if you have thought a corset comfortable; if ever you have felt a gratifying sense of satisfaction in the mirror reflection of your corseted figure, we say

Come Tomorrow

And allow the manufacturer's representative to explain to you the improvements in the Gossard Models, and fit you with the Model designed especially for your type of figure. Come and see the classic back—the convenient front lacing device—the beautiful lines—learn how Gossard Corsets gently and naturally support the abdomen and how comfortable they are. You owe it to yourself to investigate the new Gossard Corsets. We'll be expecting you.

MAKES PLEA FOR A UNION

Gompers Would Unite Farmers and Organized Labor.

St. Louis, May 3.—Samuel Gompers, president of the American Federation of Labor, made a strong plea for a union of farmers and organized labor in an address before the joint convention of farmers' unions.

He denied the report that he came here to organize a new political party, but declared that "when organized industrial workers and organized farmers will stand shoulder to shoulder in fighting for equality and justice, then will come a new dispensation and a new order of things."

"We will fight our battles together, the farmer and the laboring man, buying each other's products that bear the union label. I want to cement the unity between the wealth producers of the country, so that in the battle for justice, peace and equality before the law the farmer and the wage earner will be found shoulder to shoulder."

Dr. John Long of Madison, Wis., in an address urged that farmers store their goods and sell at a fixed price.

The Nicotine Water Habit.

The hookah, bubble bubble or Turkish water pipe is always being smoked by Burmese women, partly because they like it, but mainly to supply the men with nicotine water. This bubble bubble nicotine water habit is, in fact, a lazy form of tobacco chewing. A mouthful of the nasty beverage is held in the mouth as long as possible. They carry about gourds full of it and claim it preserves their teeth.

New Use For Glass Eye.

A New Yorker says that he knows a man with a glass eye who makes it pay for itself many times over. The man goes abroad several times a year and buys jewels as a side issue. He puts one or two of the best stones in his eye and so smuggles them through the custom house safely.

Will spark plugs be any cheaper? Shall we find our gas bills steeper? Can we get our stock of fireworks from the ground?

Will its carbon diamonds send us? Will its iron courage lend us? Will its sodium salt the sea more when it falls?

Will it shower a lot of rocks, Giving us magnetic shocks? What will be the card it leaves us when it calls?

Washington, May 3.—To Governor Hughes was awarded the compliment of confirmation by the senate for the high office of the supreme court, after his nomination had been reported from the committee on judiciary.

Woman Hangs Herself.

La Moure, N. D., May 3.—Using a large handkerchief, which she knotted about her neck and with one corner tied to a bedpost, Mrs. Augusta Schwartz, residing near Oaks Junction, committed suicide. She was mentally unbalanced, her condition being brought on by worry and physical exhaustion.

Cherub Devine

By SEWELL FORD

Copyright, 1900, by Mitchell Kennerley

Now, just what sort of mental process went on in the brain of Nicholas Walloway it would be vain to try to trace. He was a complex product, whose character had been molded not only by circumstances of birth and breeding, but by the strong stamp of heredity.

He was a young man chiefly distinguished by a reserved stiffness of manner, a quality which often inspires a confidence that obvious genius fails to command. If, in hesitating to accept the advantage offered him by the impulsive Mr. Devine, he was troubled by problems of an ethical nature, he allowed them to be easily swept away. For many months he had wanted to see the Countess Vecchi. Earnestly he had wished for a chance to talk to her alone, and now this very opportunity was thrust upon him.

"Well, Cherub, if you think you had better leave this to me, why, I—"

"Good! And don't forget about calling me up tonight to let me know what luck you have."

No hint of this altered program, of course, had reached Hewington Acres, so it happened that when Timmins finally did bring up the lathered cobs with a fine flourish the whole household was assembled to witness the Cherub's much heralded return. The Countess Vecchi had at the last moment abandoned her anguished pose and yielded to curiosity. Mr. Hewington was even more eager to learn what it was all about. Mr. Devine never knew just what he missed by backing out.

In his stead there stepped from the carriage Mr. Nicholas Walloway, outwardly cool and self possessed, but secretly very much at loss to know just how he should proceed. For a moment he regarded the expectant group with some astonishment. Then Mr. Hewington voiced the common thought in one question:

"Why, Nicholas, where is Mr. Devine?"

"Mr. Devine is on his way back to town."

"But he sent word"—began the countess, only to be stopped by Mr. Walloway's hasty explanation.

"He has asked me to transact some business with you, countess. Might I—er—"

And he glanced significantly at the door.

The Countess Vecchi promptly led him into the library.

"Well, Nicholas?" she asked. Mr. Walloway had seated himself at the library table and was sorting some documents. It had been years since she had called him Nicholas. Well, this was an auspicious beginning. He smiled indulgently, straightened his shoulders and placed his finger tips together in a judicial manner. It was rather an effective pose, indicating the patiently receptive mood of a superior mind.

"My dear Adele"—

"Mr. Walloway!" The Countess Vecchi could be a most explosive young person, and her brown eyes could simulate indignation very convincingly.

"But—but you called me Nicholas," he protested.

"I didn't call you my dear Nicholas, did I? I want to know why Mr. Devine sent you instead of coming himself."

(To be Continued)

A Pathetic Appeal.

"When Wolsey conquered Cete-wayo," said an English officer, "he took nearly all his wives away from him. I believe he only left the moon, a half dozen or thereabouts. Cete-wayo day after day sent piteous messages to Wolsey pleading for the rest of his wives, but the British soldier refused sternly. When Cete-wayo came to leave the country Cete-wayo, in despair, sent this message to him: "If you will not send me any more wives will you not at least be enough of a gentleman to exchange the six I have for six others?"

Memory and Intellect.

The possession of a great memory does not necessarily mean a strong intellect. Mozart when only thirteen years old played a new opera from one hearing which had been composed especially to test his skill. But, in addition to reproducing the opera from memory without missing a note, he introduced in the second playing the variations which struck his cultured hearers dumb with amazement. Blind Tom could probably have reproduced the same opera. He did play Liszt's celebrated Hungarian opera after hearing it once without missing a note, but he could not have created what Mozart did. He had Mozart's memory, but not his intellect.—New York American.

Strangled to Death.

Hartford City, Ind., May 4.—An oil prospector was strangled to death by the machinery on his "lease" in this county. Whelple S. Fowler, who came prospecting to the Indiana oil fields from Virginia two years ago, was standing alone near his pump. He wore a long "overall" coat, buttoned tightly at the throat. A whirling shaft caught the tail of the coat, ripped it up the back to the neckband and garrotted him.

PROGRAMME IN GREAT DANGER

That of President Taft Likely to Be Defeated.

REPUBLICAN LEADERS AT SEA

Have Reached the Stage Where They

Are Willing to Admit That Their Party No Longer Has a Responsible Working Majority in Either House of Congress — Regulars Combine With Democrats in Fight on Railroad Bill.

Washington, May 4.—The entire Taft programme of legislation is threatened with emasculation, if not complete defeat, as a result of the chaotic conditions in the senate and the house.

Republican leaders in congress have reached the stage where they are willing to admit that the republican party no longer has a responsible working majority in either house and that it is difficult to tell from day to day in what direction the vane of legislation will point. Tuesday the spectacle was presented in the senate of the organized republicans combining with the democratic minority to vote out of an administration bill a proposition advocated by a republican president. Section 7 of the Taft railway bill, which opens the way for the making of traffic agreements between railroads, was the provision thrown overboard and this was followed by a further lightening of ballast in the strife of Section 12, which would have legalized mergers between competing roads.

Senator Nelson of Minnesota made the motion under which Section 12 was railroaded from the bill. Senator Clay of Georgia, a Democrat, had the honor of moving the elimination of Section 7. Members of the house were afraid of the cry being raised that Section 7, if enacted into law, would repeal the Sherman anti-trust law so far as it affects railroads. They had visions of angry constituents asking them to explain increased freight rates.

Northwestern Men in Fight.

Northwestern Republicans took a hand in the proceedings in the house, having all the progressives from that section vote to eliminate the provision relating to traffic agreements. Representative Martin of South Dakota offered an amendment drafted along the lines of the amendment presented to the senate bill by Senator Cummins of Iowa. It provided that before such traffic agreements became effective they should be approved by the interstate commerce commission.

Representative Martin denied the contention made in debate that Section 7 of the bill was in conformity with a declaration contained in the republican national platform of 1908. That platform, it was contended, called for a law authorizing traffic agreements. Mr. Martin insisted that while the platform made such a declaration, it especially provided that such agreements should first be approved by the interstate commerce commission, and that they should not be entered into by competing railroads, as would be possible, Mr. Martin said, under the provision up for consideration. The Martin amendment while adopted, went out, however, when the house eliminated the entire section.

The railroad bill was the keystone of the Taft legislative programme and leaders in congress are fearful of the effect that the changes that have been made will have on other measures recommended by the president. There is dissension even among republican regulars in the senate over the surrender of the traffic agreement provision.

More than one of the so called conservatives declare emphatically that they would rather have preferred to stand by their guns and go down to defeat before the progressives than to have turned their backs on propositions advocated by Mr. Taft.

The indications are that the success of the senate progressives in killing Sections 7 and 12 of the railroad bill has only whetted their appetite and that they are preparing to oppose the regulars on other sections of the bill.

St. Paul, Minn.

Rates \$1.00 per day and up

There is not, perhaps in the entire country, certainly not in the Northwest, a better or more favorably known hotel than the HOTEL RYAN, ST. PAUL. To think of St. Paul was to think of the RYAN HOTEL, and vice versa. Situated on the corner of Sixth and Robert Sts., in the very center of the retail and wholesale district, in other words the Ryan Hotel is practically the HUB OF ST. PAUL, as everything radiates around the Hotel. All car lines pass the doors, within three minutes walk to the theatres, five minutes walk from Union Depot, or take Hamline-Union Depot car from depot to Hotel door. Five minutes from steamboat landings, on direct car line to all parks and pleasure spots and the new Minnesota State Capitol. Absolutely fireproof, large lobby, halls and rooms, new electric elevator, and the most homelike hotel imaginable.
